SITUATION SUMMARY

Cal OES Inland Region

Earthquakes, Janesville, Lassen County

On 08/03/16 at 2155 hours the California State Warning Center observed 4 earthquakes (EQ) between M4.7 and M2.8, near Janesville, Lassen County.

- At 2204 hours the CSWC made contact with the Lassen County Warning Point and surrounding Op Areas and they advised the EQ was felt, but there were no reports of damage or injuries.
- On 08/04/16 at 0838 hours, the Cal OES EQTP Duty Officer advised:
 - There have been approximately 44 earthquake events from M0.6 to the largest M4.5Mreported in the area 19 Miles ESE of Janesville.
 - The three largest events are:
 - 2155 hours – 4.5 verified at a depth of -1.3 miles
 - 2158.19 hours – 3.4 verified at a depth of 2.9 miles
 - 2158.32 hours – 4.4 verified and at a depth of -1.3 miles.
 - This event was widely felt from Redding, Chico, Oroville, Truckee and Reno.
- Dr. John Parrish of the California Geological Survey indicated that these are normal tectonic events, typical of the area. They are not of an unexpected size.
- California Department of Water Resources (DWR) advised at 2246 hours, inspections will be conducted at Antelope Dam, Frenchman Dam and Grizzly Valley Dam.
- The CSWC made all notification per SOP and will continue to monitor and provide updates as they are warranted.
- See Fire Activity Section

Preparedness Level 3	Preparedness Level 3	Preparedness Level 3
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Soberanes, Vegetation Fire, Monterey County

Location: 1 Mile East of Soberanes Creek, 5 miles south of Carmel Garrapata State Park

Jurisdiction: SRA / GTS

Type 1 IMT

Start Time: 07/22/16 at 0848 hours

Per Cal OES Duty Officers, CALFIRE, and ICS-209 as of [08/04/16 at 0616 hours](#):

- [51,000 Acres, 27% Contained](#)
- Expected Containment Date: 08/31/16
- 2,000 Residences Threatened
- 57 Residential Structures Destroyed, 11 Outbuildings Destroyed
- 3 Residential Structures Damaged, 2 Other Minor Structures Damaged
- [Fire will continue to grow to south and southeast.](#)

Resources Assigned

- [227 Local Government Engines](#)
- [98 Cal OES Engines](#)
- 1 Cal OES Water Tender
- 2 Cal OES Support Units
- 1 Cal OES Satellite Phone Cache
- 1 Cal OES MIGU
- 2 California National Guard Fuel Tenders
- [12 California National Guard Type-2 Handcrews deployed 08/04/16.](#)

FIRE ACTIVITY

Soberanes, Vegetation Fire, Monterey County

Cal OES Deployments

- 4 Cal OES Assistant Chiefs assigned (5222, 5212, 5214 and 5226)
- 1 Regional Emergency Services Coordinator (ESC) deployed to Monterey County EOC.
- [1 Regional Emergency Services Coordinator \(ESC\) deployed to the Salinas EOC.](#)
- 13 Cal OES Public Safety Communications (PSC) Technicians

Activations

Per Cal OES Coastal Duty Officer (CDO):

- Monterey County EOC resume Level 2 activation at 0800 hours on 08/04/16.
- The Cal OES Coastal Region EOC is activated at Level 2 from 0800-2000 in support of Monterey County and will continue at Level 2 through the week.

Proclamations

- On 07/26/16 Acting Governor Tom Torlakson issued emergency proclamations for Los Angeles and Monterey counties due to the effects of the Sand and Soberanes fires, which have burned tens of thousands of acres of land, threatened thousands of homes and structures and caused the evacuation of residents.
- On 07/24/16, Monterey County, proclaimed a Local Emergency due to the Soberanes Fire. There are no requests for state assistance.

FMAG

- On 07/28/16 at 1852 hours the FMAG was approved by FEMA, FM-5137.

Critical Infrastructure

- Per the Cal OES Telecommunications Duty Officer (TDO): The Black Mountain State Repeater Site is functional and operational with generator power only at this time; PG&E has no estimated time of restoral of power.
- Per the Cal OES CDO PG&E Teams went out on 08/03/16 and started repairs.

Critical Infrastructure Deployments

Per Cal OES Telecommunications Duty Officer (TDO):

- Communications Coordinator responding to ICP
- Frequency Coordination of VTAC and UTAC frequencies
- MIGU-2 for Interoperability communications support
- Providing 15 Iridium Phones from Cal OES Cache
- Coordinated 20 Iridium Phones from Satellite Vendor
- TCOM working with Guard and COML for AVL solution
- Providing communications support for Coastal Region

FIRE ACTIVITY

Sobranes, Vegetation Fire, Monterey County

Evacuations

Per the Cal OES LDO as of 08/03/16 at 0910 hours:

- Monterey County Sheriff's Department is reporting that they still have mandatory evacuation orders in place for the following areas. This represents approximately 400 residents.
 - Pala Colorado Area
 - Cachzua Area
 - Tassajara Area

Shelters

- A Red Cross shelter has been established at All Saints Day School, 8060 Carmel Valley Road, Carmel-By-The-Sea.
 - [Midnight Shelter Count: 8](#)
- The Monterey Calvary Church, 3001 Salinas Highway, Monterey was opened by the church pastor for people tent camping outside.
 - Monterey Calvary Church is allowing evacuees to use the bathrooms and showers during the day from 0900 – 1700 hours.
 - [Midnight Shelter Count: 15-20](#)
- County Social Services are also available to assist.
- There are no AFN issues reported at this time.
 - The EOC has been monitoring concerns and has developed a plan to ensure AFN needs are met, including transportation during an evacuation, and while at a shelter.
- The Department of Health and Human Services (DHSS) has been in touch with their regular clients to determine if they have any needs or impacts.

Health and Medical

- The San Joaquin Valley Air Pollution Control District has issued an air quality alert due to smoke impacts in San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare Counties, and the valley portion of Kern County from the Sobranes fire.

Per Cal OES CDO:

- Monterey Air Quality Board has issued an advisory. More information can be found at: <http://mbard.org/air-quality/>.
- Monterey Bay Air Resources District has placed and activated a total of 12 Air monitors.

FIRE ACTIVITY

Sobranes, Vegetation Fire, Monterey County

Recovery

- A one-day Local Assistance Center (LAC) with local, state, and non-profit agencies will open on Saturday 08/06/16, from 0900-1500 at the Carmel Mission Inn, 3665 Rio Road, Carmel, CA 93923. The LAC will offer information and services to assist residents with recovery efforts.
- The county is developing a plan to perform damage assessments and to perform debris removal, when it is safe to do so.
- Community meetings have been taken place nightly at 1800 hours.
- Representatives from CAL FIRE, USFS Los Padres National Forest, Monterey County and Monterey County Sheriff's Office will be present to discuss details of the fire, its progress and recovery efforts.
- Donations are being managed by Recovers.org www.MontereyCountyRecovers.org. So far they are able to manage all donation requests.
- The Sheriff's Office will be coordinating a shuttle this week to allow residents of evacuated areas in for a brief time to survey damages.
- Damage assessments were conducted on 08/03/16 with PG&E to see if some residents can go into the cold burn areas.

FIRE ACTIVITY

Sand, Vegetation Fire, Los Angeles County

Location: 14 Fwy X Sand Canyon Rd, 1 mile south of Santa Clarita

Type 2 IMT, FRA

Start Date/Time: 07/22/16 at 1411 hours

Per CALFIRE, Cal OES Duty Officers and ICS-209 as of [08/03/16 at 1754 hours](#):

- 41,432 Acres, 98 % Contained
- 19 Residential Structures Destroyed, 1 Other Minor Structure Destroyed
- 1 Single Residence Damaged, 5 Other Minor Structures Damaged

Recovery

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

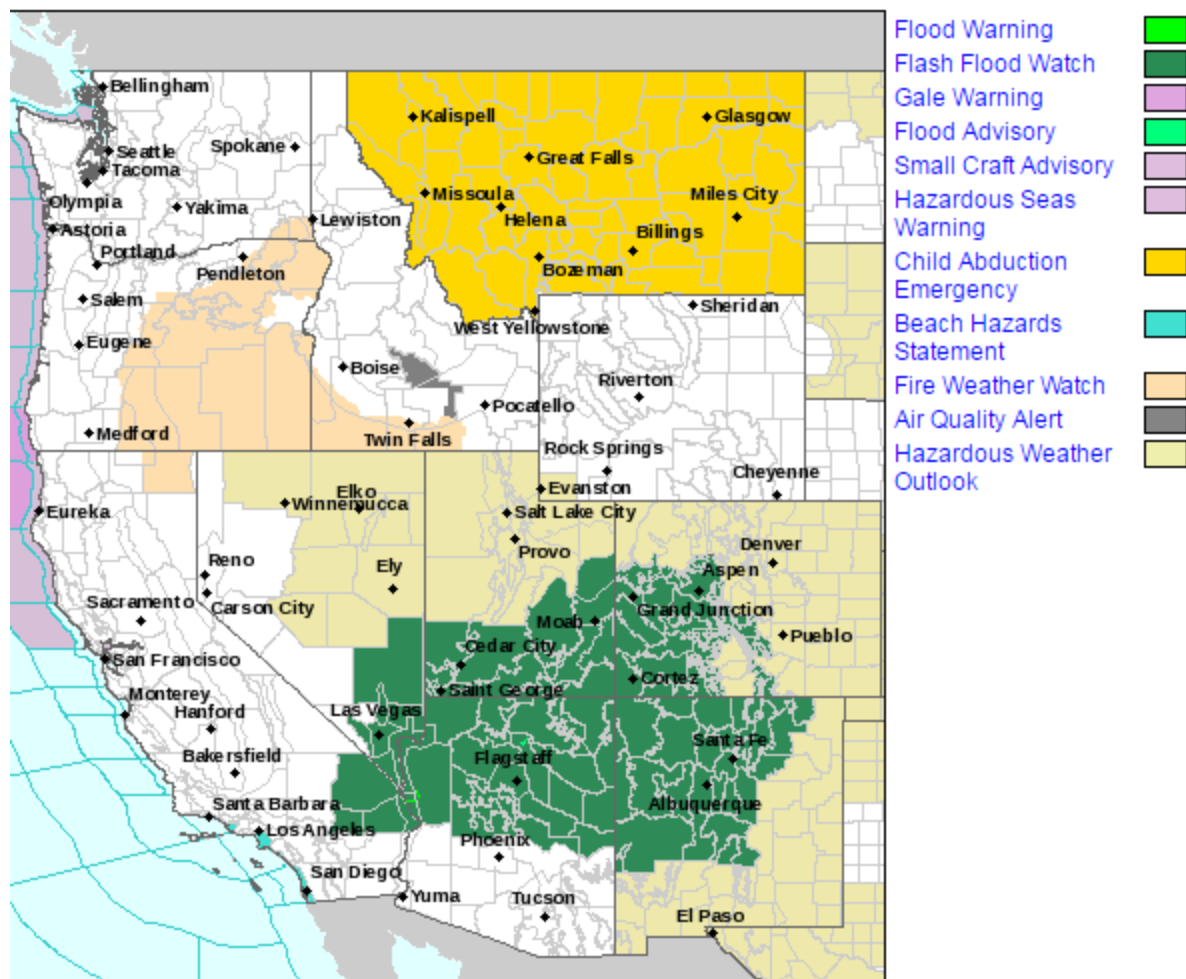

A low pressure trough along the Washington/Canadian border will be moving east today and its southern edge will continue to keep North Ops under a dry flow pattern. A weak low pressure trough will develop over the region Thursday, and some form of it will linger over the region through the middle of next week. A bit of moisture will make it into North Ops over the next few days, and some very isolated afternoon and evening thunderstorms could develop in the far northern areas as early as Thursday, but such thunderstorms look a bit more probable Friday and possibly Saturday. Any lightning would be rather dry. High Risk designations for the possible lightning are not in place at this time, mainly because there would likely be very few storms with limited amounts of lightning. The warmest inland valleys will be around 103 today, and it will probably be the warmest we'll see for the next week. Afternoon RH values will commonly be in a range of 5-15% away from the marine layer. Overnight recoveries will vary considerably, but in general, expect mostly moderate recoveries and thermal belt conditions to develop where some poor recovery could occur. As the trough settles in over the region, the coastal marine layer will become fairly deep for this time of year at around 1500-2000 ft thick. Coastal low clouds and patchy fog will return. Winds will generally be of local diurnal patterns for the 7 day period, but moderately strong, daily gusty afternoon winds will also be likely to develop in The Delta region.

SOUTHERN CALIFORNIA

Scattered showers and thunderstorms will continue across the deserts bordering Nevada and Arizona through this evening as abundant monsoonal moisture remains over the far eastern part of our area. An isolated shower or thunderstorm will be possible over Central California from the Sierra Crest east and across the San Bernardino and Cleveland National Forests and their surrounding desert locations through this afternoon. Dry southwest flow aloft will prevent any shower and thunderstorm activity from occurring in our region Friday through the middle of next week. A weak Pacific trough will bring near to a little below normal temperatures through the middle of next week. Maximum temperatures will be in the upper 70s and 80s across the mountains and in the upper 80s and 90s in the valleys today. Temperatures will cool a few more degrees Friday, with mid 70s to mid 80s across the mountains and mid 80s to mid 90s in the valleys. Minimum humidity will be mainly in the single digits and teens across Central California and between 15% and 30% across Southern California today. By Friday, widespread minimum humidity in the single digits and teens will occur above and inland from the marine layer. These very dry conditions will continue through the middle of next week. The marine layer will be between 2,000 and 3,000 feet deep Friday through the middle of next week. South to west afternoon winds of 15 to 25 mph with gusts to 40 mph will surface across the mountain ridges and desert passes Friday through the middle of next week.
